---

## Career Objective

Dedicated and passionate Computer Science and Engineering (Data Science) student with strong skills in Java, Python, and web development. Experienced in developing AI-based Blockchain Voting Systems. Eager to contribute to cutting-edge solutions and continuously learn emerging technologies.

## Education

B.Tech in Computer Science and Engineering (Data Science)  
Mother Theresa Institute of Engineering and Technology (MTIEAT)  
Expected Graduation: 2026 | Aggregate: 84% (No backlogs)

## Technical Skills

Programming Languages: Java, Python (Basic)  
Web Development: HTML, CSS  
Tools & Technologies: Blockchain, AI Concepts  
Soft Skills: Problem Solving, Communication, Quick Learning, Presentation

## Projects

AI-Based Blockchain Voting System (Ongoing)

- Designed a secure, transparent platform integrating AI and Blockchain to enhance voting integrity.
- Emphasis on fraud prevention and transparency in electoral processes.
- GitHub: [github.com/ASBsamer1919/sih](https://github.com/ASBsamer1919/sih)

## Hackathons & Competitions

Smart India Hackathon 2024 - Participant

- Worked collaboratively to develop tech solutions for real-world problems.
- Gained experience in team coordination, coding under deadlines, and presenting solutions.

## Certifications

NPTEL Java Certification (Elite): Scored 70%  
Certificates for Participation in Academic Presentations & Seminars

## Achievements

Recognized for innovation and effective team collaboration in academic projects.  
Active participant in college-level tech events and presentations.

## Interests & Hobbies

Exploring emerging technologies & Playing and watching cricket
